

# Fizzan Mohammed

Computer Science Student | Multi-Skilled Technical Specialist & Rapid Learner

📍 London, UK    ✉ Fizzmoham7861@gmail.com    ☎ +447895984326

## ABOUT

Highly motivated and adaptable professional with a strong foundation in Computer Science and a track record of delivering results in fast-paced environments. Equally proficient in technical problem-solving and customer-facing roles, with experience ranging from web development to high-pressure crowd management. A quick learner with excellent communication skills, dedicated to providing high-quality service and innovative solutions across many sectors.

## WORK EXPERIENCE

### Stadium Steward

Platinum Security Ltd

Jun 2025 - Present, London, England, UK

Maintained safety and order for large-scale events, expertly managing crowd flow and providing essential visitor assistance.

- Ensured the safety and positive experience of event attendees by effectively managing crowd movements and maintaining order in high-traffic zones.
- Provided proactive assistance and clear guidance to thousands of visitors, enhancing customer satisfaction and ensuring smooth event operations.
- Demonstrated exceptional adaptability and conflict resolution skills in dynamic, high-pressure environments, effectively de-escalating potential issues.

### Labour Worker

Private Job

Jul 2023 - Nov 2023, London, England, UK

Executed diverse construction, landscaping, and warehouse operations, demonstrating proficiency in tool handling and efficient task management.

- Operated various tools and machinery safely and effectively, contributing to operational efficiency and project advancement.
- Collaborated effectively within a team to complete demanding physical tasks, fostering strong teamwork and problem-solving capabilities under pressure.
- Developed robust time management skills and a strong work ethic, consistently meeting deadlines and adapting to dynamic project requirements.

## PROJECTS

### Educational Database Management System Development

Developed and managed robust databases for clients and students within a school environment, enhancing data organization and accessibility.

### Student Video Game Tournament Organization

Organized and hosted multiple video game tournaments for students during non-academic hours, fostering community engagement and providing recreational opportunities.

### Website Modernization & User Experience Enhancement

Redesigned and modernized existing popular websites, focusing on improving user experience, aesthetic design, and core functionality.

### Start-Up Website & Digital Marketing Development

Designed and developed a comprehensive website for a start-up car repair and parts service business, integrating social media and digital marketing strategies.

Crowd Movement & Safety Management Project

Implemented strategies for monitoring and controlling crowd movements and density in designated viewing areas to prevent overcrowding and ensure public safety.

Informal/Formal Support & Customer Service

Provided comprehensive customer and technical support to a diverse user base, resolving a wide range of technical issues and offering expert guidance.
